God speaks through Creation

Ever living God,

We are thankful for the wonderful world you have provided for us. Help us to treat this planet with love and respect.

Please help us to respect and be kind to our neighbour, like the Good Samaritan.

May we be appreciative of the part animals play in our lives.

Help us to brighten someone's day with a smile or a compliment.

May we see the beauty in the world, in the patterns in the morning or the raindrops down the window.

In Jesus' name we pray

Amen
